Basic Skills Boot Camp is designed as an interactive intensive seminar to promote the implementation of community college Basic Skills Plans. Many Basic Skills Coordinators have been facilitating big dreams at their respective campuses, but putting them into practice is a separate challenge, one that requires specialized knowledge and skill. This seminar will focus on some of those strategies and skills, as well as provide an opportunity to share approaches that others can use. Chaffey College is happy to host this event through the Faculty Success Center.
